

Outlaw Race Rules

All Cars must pass inspection to qualify for the race.

Who: Any sibling, parent, uncle, aunt, friend etc of a scout may enter this race.

Overview: A Modified Outlaw car is the fastest type of Derby car.

Body:

1. The main body structure must be made of wood but you are allowed to change wheels and axles as long as it will not damage the plastic track.
2. Body Specs:
 - A. Width – Not to exceed 2 $\frac{3}{4}$ " (including wheels & axles)
 - B. Length – Not over 7"
 - C. Weight – Not to exceed 8 oz.
 - D. Height – Not to exceed 4"
 - E. Center rail width clearance – 1 $\frac{3}{4}$ "
 - F. Bottom Clearance – $\frac{3}{8}$ " from track to bottom of car
 - G. Front of car must have $\frac{1}{2}$ " flat surface for starting pin
3. Body design may be enhanced by adding stable materials. All additions must be firmly attached and conform to the size specifications.
4. No part of the car body may protrude in front of the starting peg.
5. The following items are **PROHIBITED**:
 - a. Liquids
 - b. Oil
 - c. Sticky Substances
 - d. Powders (other than axle lubrication)
 - e. Loose objects on car
 - f. Magnets (Mercury)
 - g. Flames or anything that could start a fire
 - h. ANYTHING THAT WOULD DAMAGE THE PLASTIC TRACK!!!!!!
6. Lubricants must be dry on the axle at race time. Wet, Oily, or Greasy axles are not allowed.
GRAPHITE is the only Lubricant. No Exceptions.

All cars must have an inspection on Saturday March 7th by 11AM.
